Multiplication in columns — Key

4 digits × 2 digits · with regrouping

Use the matching edition. Other correct methods are valid.

Multiply by the ones, then by the tens. Add the two partial products.

1.

```
  2535
×   75
------
 12675
+177450
------
190125
```

2535 × 75 = 190,125

2.

```
  8425
×   45
------
 42125
+337000
------
379125
```

8425 × 45 = 379,125

3.

```
  4865
×   69
------
 43785
+291900
------
335685
```

4865 × 69 = 335,685

4.

```
  7103
×   20
------
     0
+142060
------
142060
```

7103 × 20 = 142,060

5.

```
  9548
×   81
------
  9548
+763840
------
773388
```

9548 × 81 = 773,388

6.

```
  6586
×   84
------
 26344
+526880
------
553224
```

6586 × 84 = 553,224
