Multiplication in columns — Key

4 digits × 2 digits · with regrouping

Use the matching edition. Other correct methods are valid.

Multiply by the ones, then by the tens. Add the two partial products.

1.

```
  3189
×   44
------
 12756
+127560
------
140316
```

3189 × 44 = 140,316

2.

```
  7221
×   65
------
 36105
+433260
------
469365
```

7221 × 65 = 469,365

3.

```
  9353
×   24
------
 37412
+187060
------
224472
```

9353 × 24 = 224,472

4.

```
  5089
×   80
------
     0
+407120
------
407120
```

5089 × 80 = 407,120

5.

```
  8212
×   38
------
 65696
+246360
------
312056
```

8212 × 38 = 312,056

6.

```
  1817
×   16
------
 10902
+18170
------
29072
```

1817 × 16 = 29,072
