Multiplication in columns — Key

4 digits × 2 digits · with regrouping

Use the matching edition. Other correct methods are valid.

Multiply by the ones, then by the tens. Add the two partial products.

1.

```
  4890
×   77
-------
 34230
+342300
-------
376530
```

4890 × 77 = 376,530

2.

```
  4668
×   60
-------
     0
+280080
-------
280080
```

4668 × 60 = 280,080

3.

```
  8992
×   39
-------
 80928
+269760
-------
350688
```

8992 × 39 = 350,688

4.

```
  9141
×   18
-------
 73128
+ 9141 0
-------
164538
```

9141 × 18 = 164,538

5.

```
  5853
×   55
-------
 29265
+292650
-------
321915
```

5853 × 55 = 321,915

6.

```
  5991
×   85
-------
 29955
+479280
-------
509235
```

5991 × 85 = 509,235
