Multiplication in columns — Key

4 digits × 2 digits · no regrouping

Use the matching edition. Other correct methods are valid.

Multiply by the ones, then by the tens. Add the two partial products.

1.

```
  2112
×   41
------
  2112
+ 84480
------
 86592
```

2112 × 41 = 86,592

2.

```
  3020
×   32
------
  6040
+ 90600
------
 96640
```

3020 × 32 = 96,640

3.

```
  1201
×   14
------
  4804
+ 12010
------
 16814
```

1201 × 14 = 16,814

4.

```
  1110
×   21
------
  1110
+ 22200
------
 23310
```

1110 × 21 = 23,310

5.

```
  9062
×   11
------
  9062
+ 90620
------
 99682
```

9062 × 11 = 99,682

6.

```
  1020
×   33
------
  3060
+ 30600
------
 33660
```

1020 × 33 = 33,660
