Multiplication in columns — Key

4 digits × 2 digits · no regrouping

Use the matching edition. Other correct methods are valid.

Multiply by the ones, then by the tens. Add the two partial products.

1.

```
  1200
×   14
------
  4800
+ 12000
------
 16800
```

1200 × 14 = 16,800

2.

```
  1311
×   22
------
  2622
+ 26220
------
 28842
```

1311 × 22 = 28,842

3.

```
  2140
×   21
------
  2140
+ 42800
------
 44940
```

2140 × 21 = 44,940

4.

```
  1001
×   32
------
  2002
+ 30030
------
 32032
```

1001 × 32 = 32,032

5.

```
  3003
×   33
------
  9009
+ 90090
------
 99099
```

3003 × 33 = 99,099

6.

```
  1013
×   13
------
  3039
+ 10130
------
 13169
```

1013 × 13 = 13,169
