Multiplication in columns — Key

4 digits × 2 digits · no regrouping

Use the matching edition. Other correct methods are valid.

Multiply by the ones, then by the tens. Add the two partial products.

1.

```
  2100
×   14
------
  8400
+ 21000
------
 29400
```

2100 × 14 = 29,400

2.

```
  2302
×   13
------
  6906
+ 23020
------
 29926
```

2302 × 13 = 29,926

3.

```
  1300
×   23
------
  3900
+ 26000
------
 29900
```

1300 × 23 = 29,900

4.

```
  4236
×   11
------
  4236
+ 42360
------
 46596
```

4236 × 11 = 46,596

5.

```
  2101
×   42
------
  4202
+ 84040
------
 88242
```

2101 × 42 = 88,242

6.

```
  1031
×   31
------
  1031
+ 30930
------
 31961
```

1031 × 31 = 31,961
