Multiplication in columns — Key

4 digits × 2 digits · with regrouping

Use the matching edition. Other correct methods are valid.

Multiply by the ones, then by the tens. Add the two partial products.

1.

```
  3543
×   67
-------
 24801
+212580
-------
237381
```

3543 × 67 = 237,381

2.

```
  2915
×   61
-------
  2915
+174900
-------
177815
```

2915 × 61 = 177,815

3.

```
  9237
×   84
-------
 36948
+738960
-------
775908
```

9237 × 84 = 775,908

4.

```
  4009
×   42
-------
  8018
+160360
-------
168378
```

4009 × 42 = 168,378

5.

```
  7182
×   30
-------
     0
+215460
-------
215460
```

7182 × 30 = 215,460

6.

```
  2887
×   84
-------
 11548
+230960
-------
242508
```

2887 × 84 = 242,508
