Use sevens in a story

Follow-up practice · Choose the groups that count

Name: _____ Date: _____

Before you start

Draw or count the groups in the question before multiplying.

Four rows of seven with one row hidden leave three visible rows. 3 × 7 = 21.

Practice 1

A crate holds 8 bags of 7 apples. Two bags are taken out. How many apples remain?

Practice 2

A calendar shows 4 full weeks. One week has already passed. How many days are left?

Practice 3

A club fills 5 tables with 7 people at each. Two more tables fill. How many people sit altogether?
