Read the equal jumps

Name: _____ Date: _____

Start at 0. Each small interval is 1 unit. Count jumps, not tick marks.

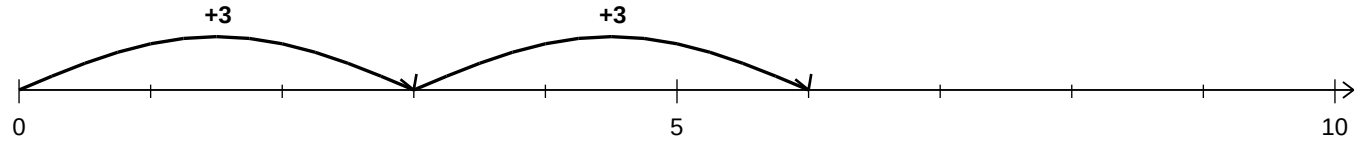

Worked example: 3 equal jumps of 4

4 + 4 + 4 = 12

3 × 4 = 12

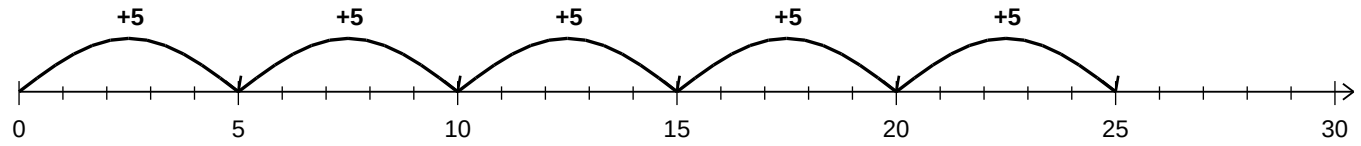

1. Read the jumps. Complete the equations.

_____ jumps of _____: _____ × _____ = _____

Repeated addition: _____

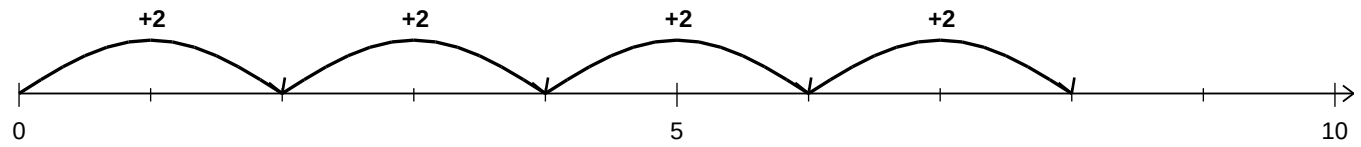

2. Read the jumps. Complete the equations.

_____ jumps of _____: _____ × _____ = _____

Repeated addition: _____

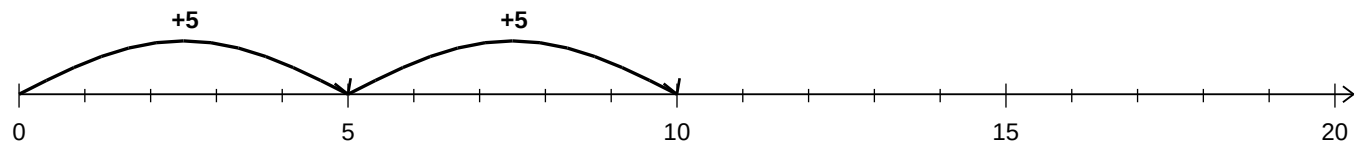

3. Read the jumps. Complete the equations.

_____ jumps of _____: _____ × _____ = _____

Repeated addition: _____

4. Read the jumps. Complete the equations.

_____ jumps of _____: _____ × _____ = _____

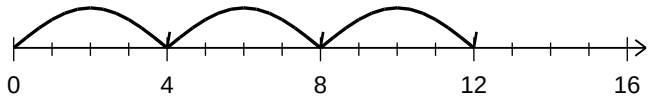

Repeated addition: _____

Draw the equal jumps

Name: _____ Date: _____

Start at 0. Each small interval is 1 unit. Count jumps, not tick marks.

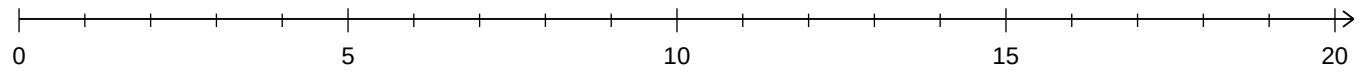

Worked example: 3 equal jumps of 4

4 + 4 + 4 = 12

3 × 4 = 12

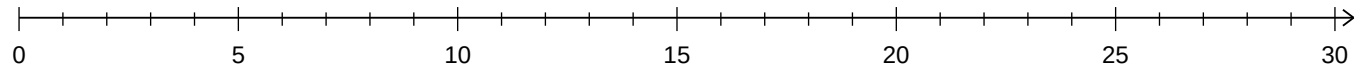

1. Draw 4 equal jumps of 4, starting at 0.

4 jumps of 4: 4 × 4 = ____

Repeated addition: _____

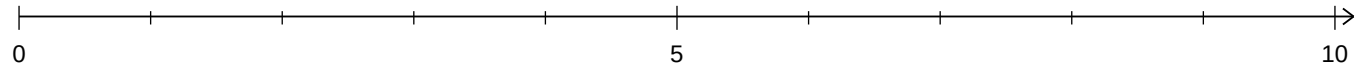

2. Draw 5 equal jumps of 5, starting at 0.

5 jumps of 5: 5 × 5 = ____

Repeated addition: _____

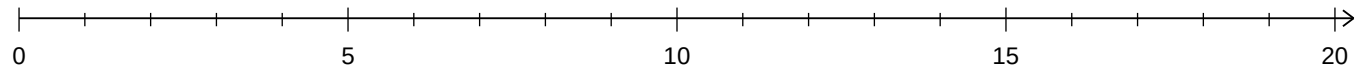

3. Draw 3 equal jumps of 2, starting at 0.

3 jumps of 2: 3 × 2 = ____

Repeated addition: _____

4. Draw 3 equal jumps of 4, starting at 0.

3 jumps of 4: 3 × 4 = ____

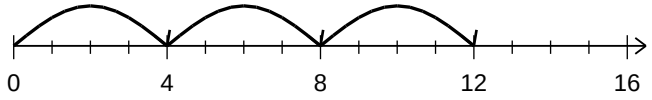

Repeated addition: _____

Read the equal jumps — Answers

Match the stage and edition code before checking.

Start at 0. Each small interval is 1 unit. Count jumps, not tick marks.

Worked example: 3 equal jumps of 4

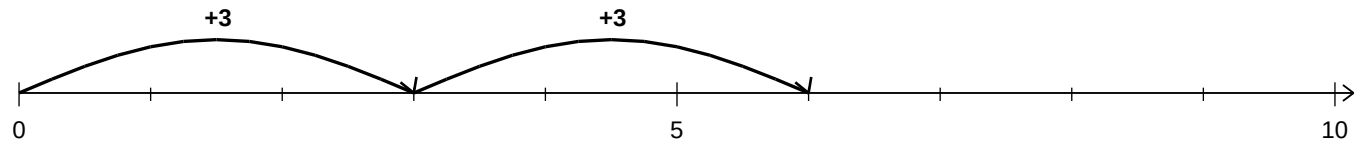

4 + 4 + 4 = 12

3 × 4 = 12

---

1. Read the jumps. Complete the equations.

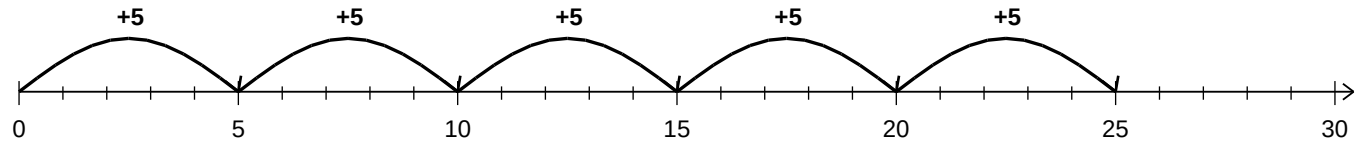

2 jumps of 3: 2 × 3 = 6

Repeated addition: 3 + 3 = 6

---

2. Read the jumps. Complete the equations.

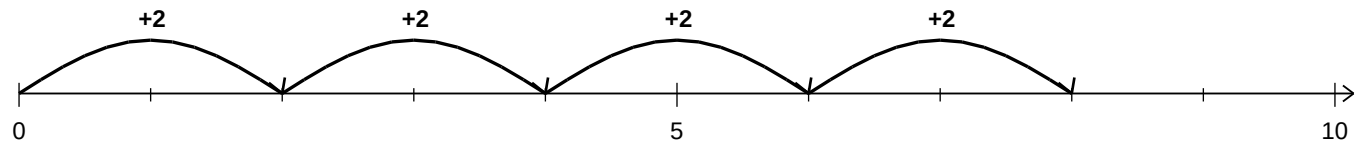

5 jumps of 5: 5 × 5 = 25

Repeated addition: 5 + 5 + 5 + 5 + 5 = 25

---

3. Read the jumps. Complete the equations.

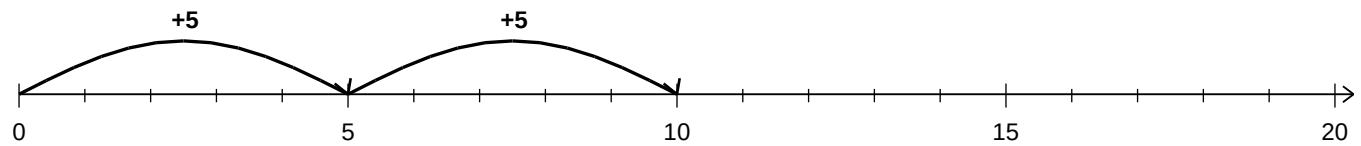

4 jumps of 2: 4 × 2 = 8

Repeated addition: 2 + 2 + 2 + 2 = 8

---

4. Read the jumps. Complete the equations.

2 jumps of 5: 2 × 5 = 10

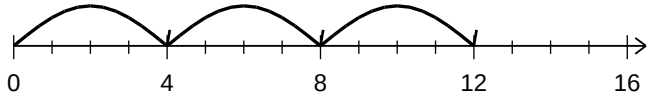

Repeated addition: 5 + 5 = 10

Draw the equal jumps — Answers

Match the stage and edition code before checking.

Start at 0. Each small interval is 1 unit. Count jumps, not tick marks.

Worked example: 3 equal jumps of 4

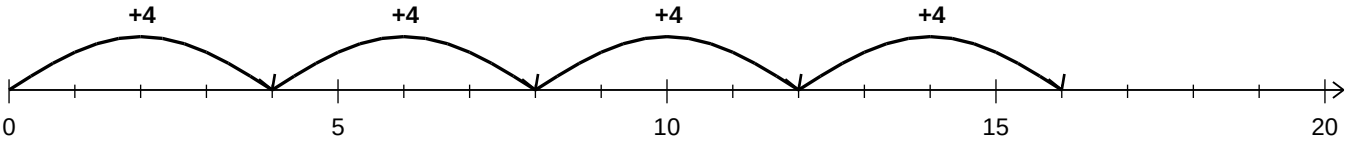

4 + 4 + 4 = 12

3 × 4 = 12

---

1. Draw 4 equal jumps of 4, starting at 0.

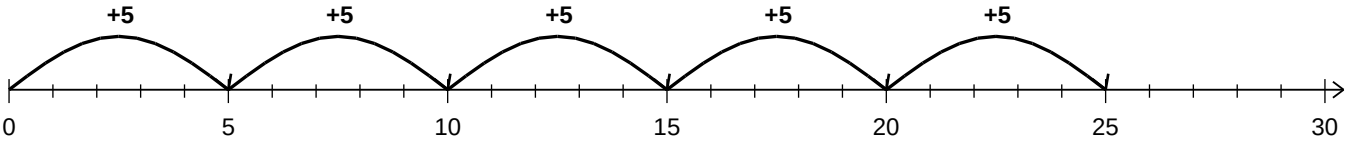

4 jumps of 4: 4 × 4 = 16

Repeated addition: 4 + 4 + 4 + 4 = 16

---

2. Draw 5 equal jumps of 5, starting at 0.

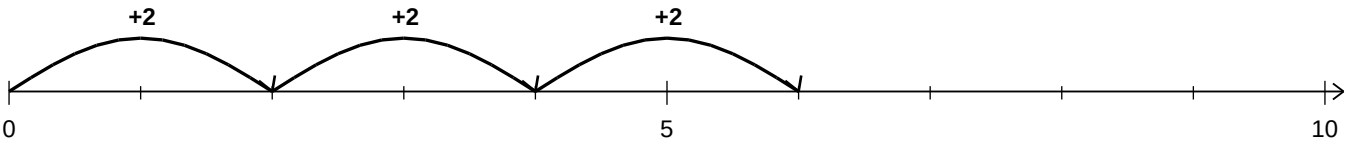

5 jumps of 5: 5 × 5 = 25

Repeated addition: 5 + 5 + 5 + 5 + 5 = 25

---

3. Draw 3 equal jumps of 2, starting at 0.

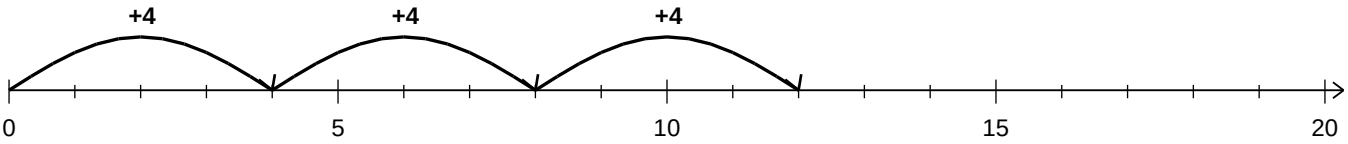

3 jumps of 2: 3 × 2 = 6

Repeated addition: 2 + 2 + 2 = 6

---

4. Draw 3 equal jumps of 4, starting at 0.

3 jumps of 4: 3 × 4 = 12

Repeated addition: 4 + 4 + 4 = 12
